

Bina Impact Advisors

Corporate Impact strategy, planning, and execution

Helping companies build impact strategies and plans, and execute them to support business goals, community needs, supply chain resilience, and employee engagement. Incorporating data to define and track social, environmental, and commercial outcomes.

For Corporations: Community and NGO Partnerships

Helping companies, NGOs, and foundations identify and vet partners in the US, globally, and in communities. Together, designing partnerships that align interests, strengthen implementation, and achieve measurable results.

For NGOs: Corporate and Foundation Partnerships

Helping NGOs identify and structure corporate and foundation partners that align with their values. To cultivate and manage long-term relationships that generate revenue, deepen mission impact, and diversify funding

Sustainability Standards

Helping companies of all sizes select and implement credible sustainability standards that match their sector, capacity, customers, investors, and growth plans.

B Corp Certification Readiness

Helping companies understand B Corp requirements, assess readiness, close gaps, organize documents, and manage the certification process in accordance with B Lab standards.

Strategy, partnerships, and growth for impact driven organizations

Helping companies strengthen their bottom line by investing in social and environmental good

Supporting NGOs to build corporate and foundation partnerships to grow their impact and funding

GINA VOLYNSKY, FOUNDER

A social impact expert with over 20 years of senior leadership experience in more than 40 countries, helping companies, NGOs, and foundations connect strategy to measurable social, environmental, and commercial results. Gina began her career at Deloitte and designed and directed programs at the World Bank, the UN, and the US Government. She established and grew a corporate ESG practice at Pact, led partnerships and business acceleration at MEDA, and managed a \$100 million international program portfolio at the State University of New York (SUNY).

Gina has worked in multiple sectors, including agri-food supply chains, digital inclusion, health services, economic development, and education in the US, Canada, Eastern Europe, Africa, Latin America, and Central and South Asia. She designs and teaches experiential graduate courses on corporate impact, partnerships, and NGO management at American University and SUNY and has served as a mentor to young professionals for over a decade. She holds an MBA, a BA in Economics.
